Website Building: Basic Layout

HTML - Markup

The following exercise contains the following subjects:

◆ HTML Basics

Instructions

Lets practice our HTML markup.

Create all the following HTML markup:

All headers

A paragraph

A bold element

An italic element

A few links

An image that it's src is from the web

An image that it's src is from your local directory.

At least **5** more markup elements that we haven't seen yet and a description on what they are made for.

Submit the file to Hive.
